Autoliv Health & Safety Policy

As a leading producer of automotive safety components, Autoliv is committed to the development and manufacturing of quality automotive safety systems while providing safe working conditions for our employees and contractors. In both the marketplace and workplace, health and safety is more than an element of our business – it is our business.

- We believe that people are our most important resource, and together, we will work diligently to identify and eliminate potential hazards and risk, improve our health and safety management system and strengthen our health and safety culture.
- We believe that work related injuries and illnesses are preventable and will continually strive to eliminate all workplace accidents, protect human health and company property, while maintaining compliance with all applicable regulatory requirements.
- We believe that the responsibility for Health and Safety starts from senior management. All employees at all levels share the responsibility to identify and eliminate unsafe conditions and behaviors, and to speak out.
